In line with our desire to reach out to Christian youths and adults through the strategy of entertainment, we hosted Christian youths to a premiership football match between Chelsea and Liverpool football clubs in the English Barclays Premiership league.

Though the natural element of the prevailing season (Rain) came in torrent, we had a modest attendance of very attentive and organized youths who enjoy themselves with the match and bottles of soft drinks with buns.

Because of the challenges we encountered at the venue, we could not give a pep – talk during the half time but at the end of the game, the youths were attentive as the national co-ordinator of CHAIN, Mr N. A. Ayuba rolled out what CHAIN is, what its does and what it can do. Also the youths were challenged to take stock of their lives and live responsibility. They were also reminded of what is expected of them as their responsibilities to God and the society. They were asked to value their lives and work hard towards becoming responsible and useful citizens. Some youths promised to come to the CHAIN’s office for further consultation. We prayed and departed at about 6.30pm.
